Regional Business Voted Best Building Society Two Years in a Row

Wide Bay Australia staff and customers are celebrating with the recent announcement that they have again been voted Best Building Society in Australia in the 2014 Mozo People's Choice Awards – the only banking awards judged by customers.

“This is exciting news and a credit to the dedication and commitment of our staff. We pride ourselves on providing exceptional customer service matched with exceptional products and there is no better testimony than to have the public support to win this title two years in a row” said Martin Barrett, Managing Director.

The Mozo People's Choice Awards invite Australians to have their say on their banking experience and vote for the nation's best financial institutions. Now in their fifth year, the Awards are recognised as the most comprehensive consumer report card on the Australian financial services industry.

More than 25,000 Australians participated in the 2014 Mozo People's Choice Awards by rating their financial institution on Mozo over the last 12 months. Customers were asked to rate their banking provider on overall satisfaction, price, features, customer service, convenience and trust. This year over 200 providers were rated, across one or more product categories.

“It is important to acknowledge that national businesses can be based regionally and be able to remain competitive with high performance outcomes. Our commitment to investing in our people, branches and technology will further strengthen our products and service to new and existing customers ” said Mr Barrett.
