Fresh New Look for Goondoon Street Branch

Regional banking institution, Wide Bay Australia Ltd, has renovated its Goondoon Street branch in Gladstone and doors are now open. The renovation is part of the company's branch revitalisation program where Wide Bay Australia is redesigning and modernising its Queensland branch network.

The new strategically designed branches include sales and service, technological, marketing and branding enhancements which benefit customers regardless of their age or financial needs.

"We are making a substantial investment in a range of areas to increase customer satisfaction and attract new customers" said Tarina Larsen, Acting Central Queensland Regional Manager.

"The Gladstone branch has had a significant change with the inside completely refurbished and redesigned to now represent one of the most modern bank branches in the region including full wheelchair access".

"I would like to invite local people to call in to our new look Goondoon Street branch to find out how Wide Bay Australia is challenging the major banks with great banking and finance solutions".

Wide Bay Australia's Business Banking Manager, Emma Brenton said the whole Team at Goondoon Street are excited to be operating from the refurbished branch and look forward to continuing to delivering exceptional service to new and existing personal & business banking customers.
